

# Give your e-waste a greener future

## **Sustainable recycling.**

### **Secure solutions. Social impact.**

At Electronic Recycling Australia, we are transforming the way e-waste is handled – responsibly, securely, and with purpose. Backed by Bedford, we are proud to create meaningful employment opportunities for people with disability while making a real difference to the planet.

#### **What we do:**

### **Eco-friendly recycling**

We recycle at least 80% of electronic and electrical components, contributing to a circular economy and reducing landfill waste. This includes:

- Mattresses
- Mobile phones
- Laptops
- Printers
- TVs
- Smart watches
- Microwaves
- Vacuum cleaners
- Hairdryers
- Keyboards
- Computer screens
- Kettles
- Toasters
- Fridges and freezers

### **Secure data destruction**

Your privacy matters. We ensure all personal data is safely and thoroughly erased from your devices.

## **Business & bulk collections**

Do you have a high volume of electronics to recycle? We welcome business e-waste and can organise custom collection solutions to suit your needs.

## **Shop refurbished, support inclusion**

Explore our online store for quality refurbished electronics. Every purchase helps support jobs, opportunities and pathways at Bedford.
